

Load Securement

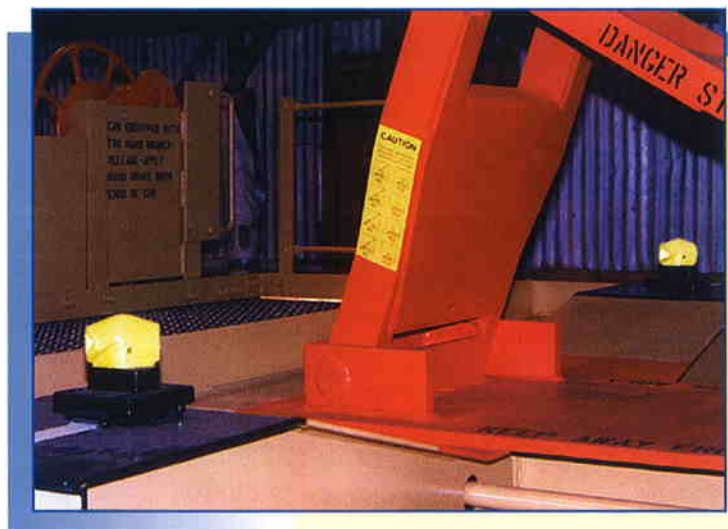

Model: 68830

Description: Automatic Twist Lock for Containers on Rail Cars

Product Benefits:

- Secures containers to railcars in railroad applications.
- Fits all containers with ISO corner castings.
- Easy weld application.
- Universal-no rights or lefts.
- Faster loading and unloading times by eliminating need for a ground man to lock/unlock manual locks.
- Costs less to install and maintain.
- U.S. Patent 4,626,155.
- Rugged design ideal for specialty services such as garbage/waste haul and dirt/sand/coal haul.
