

TRACK MAINTENANCE AND CONSTRUCTION CANADA

Holland has been a leader in progressive and comprehensive solutions spanning the rail industry for nearly 85 years. Our services include the equipment, staff and expertise coupled with industry leading welding capabilities to give you customized solutions and maximize uptime.

Cut and Slide

The combination of our Mobile Welding and Track Maintenance and Construction Teams have turned thousands of miles of jointed rail into CWR to help our customers save in maintenance costs.

Tie Renewal

We tailor our tie renewal resources to meet your specific needs – spot renewal, out of face renewal, work in a concentrated area or spread over a greater distance – to ensure the most effective use of your tie replacement dollars.

Sparkless Carbide Saw

Increase your efficiency safely with the ability to distress rail while cutting spark free.

Track Construction

Whether new track, turnout, diamond or siding construction we provide what you need to get the job done safely and efficiently.

Surfacing

The flexibility of Holland's personnel and equipment will meet your requirements large or small on a timely basis.

Crossing Installation

Holland has the experienced personnel and equipment needed to install a quality, long lasting crossing that will require minimal future maintenance.

Turnout Welding

Our Extended Reach MobileWelder® has the capability of welding from a right of way road onto the track, or from one track to an adjacent track, depending on the distance between track centers.

Thermite Welding

Where flash butt welding does not fit, Holland can supply fully trained thermite welding crews with equipment, for both the standard thermite weld and head wash repairs. Call for more details.

Grapple Trucks

Scrap pick up and material delivery efficiently handled by our grapple truck fleet, equipped with tool circuits, knuckles and air to pull gondolas, flat cars and ballast cars. Whether handled from pickup in the field to third party sale on behalf of a customer, or included in the price of the project for disposal of by Holland, our soup to nuts handling of steel scrap will relieve you of the drain on human resources and time.

Snow Management

Holland has experienced operators our 940s equipped with the necessary snow attachments to keep your yards and mainline in operation during the long cold Canadian winters. Holland can also supply labor for those snowy areas that the heavy equipment just cannot quite remove.

Rail Relay Treatment

Relay bolted rail not converted to CWR in place by a Cut and Slide process can easily and efficiently be converted to weld-ready sticks of rail with bolt-hole and battered joint areas removed with Holland rail treatment.

Repair Welding

Flash-butt welds made by a Holland MobileWelder® at affected locations during defect removal are quick, effective, and frequently eliminate the need for installation of additional rail.

Protecting Foremen

Want to avoid the drain on your track maintenance work force for the protection of track maintenance and construction? Holland can supply fully qualified protecting foreman qualified in CROR to protect all types of work including third party projects.

Roller Line

The flexibility of setup and the portability of our equipment make roller line welding a first option for rail fabrication on many projects.

Track Construction Equipment

Grapple Trucks	Rotary Dump
Excavators	6700 Harsco
Pettibone Speed Swing	Tamper
Geismar Rail Threader	925 Knox Kershaw
MPR	Regulator
Nordco CX Spiker	940 Knox Hershaw
Teleweld Heater Cars	Mark Tamper IV – Canada
	Snow Fighter – Canada

Tie Equipment

- Grapple truck
- SP2R Spike Puller
- Tie Crane
- Nordco Tripp Tie
- Inserter
- Rail Lifter
- Nordco CX Spiker
- 925 Regulator
- 6700 Harsco Tamper

Joint Elimination and CWR Installation Equipment

- Geismar Bolt Machine
- Nordco SP2R Spike Puller
- Pettibone Speed Swing
- Scrap Reclaimer
- Nordco CX Spiker
- Kribber Adzer
- Nordco Anchor
- Applicator Model F

Miscellaneous Equipment

- Holland Welder w/160 Ton Puller
- Bear Saws
- Geismar Profile Grinders
- Web Polishers
- Boom Truck
- Crew Trucks/Power Packs
- Hi-Rail Backhoe JCB 4CX
- Teleweld Heater Car Series 2
- 6700 Harsco Tamper
- 925 Kershaw Regulator
