

Holland's Grate Lock Track (GLT) is a key component to our vehicle restraint product offerings.

Holland offers a Complete Vehicle Restraint System that includes the GLT, LocknLoad and Door Defender. The superior construction and galvanizing of GLT ensures excellent durability in the demanding auto rack environment.

- Compatible with all bi-level chocks
- Features a greatly diminished weld “slop” which allows for better compatibility with the installation of the chocks through the car
- Easily installed – dimensionally precise and no left or right panels
- Excellent alignment for hinges & grating connectors
- Warranty included against manufacturing defects, workmanship or design defects for 5 years
